 unpopular ways. The education system was not working well, and there was a need for change. The king believed in the principles of the Chakri dynasty and wanted to promote education and the arts. He founded a number of schools and universities, including the Chulalongkorn University, which is still one of the top institutions in the country.

The King was also an avid supporter of art and culture. He commissioned many works of art, including a statue of himself that can still be seen today in the park named after him.

The King's legacy is still felt in Thailand today. His influence can be seen in the country's culture, education, and art. He was a forward-thinking leader who believed in modernization and progress, and his vision has shaped Thailand into the country it is today.
